surface of the reinforcing plate facing away from the coupling. Inoue has no suggestion at all of the features of the invention defined by amended claim 1. Accordingly, amended claim 1 and its dependent claims 2-5 are believed to be patentable over Inoue.

The applicants and the assignee are pleased to note that claims 16-20 were allowed as filed. Claims 16-20 remain in the application and have been amended merely to eliminate the reference numerals. Accordingly, amended claims 16-20 are believed to be in condition for allowance.

In view of the preceding amendments and remarks, it is submitted that all of the claims remaining in the application are directed to patentable subject matter and allowance is solicited. The Examiner is urged to contact applicant's attorney at the number below to expedite the prosecution of this application.

Respectfully submitted,

Gerald E. Hespos, Esq.
